

# It Takes All of Us Together

Don Gnecco

It takes all of us together, walking hand in hand.  
It takes lots of love and patience to help us understand.  
Each of us must do our part, all in unity.  
It takes all of us together, you and me.

It takes all of us together, to make the world go 'round.  
It takes of all us to sing along, to make a joyful sound.  
Each of us must sing our part, all in harmony.  
It takes all of us together, you and me.

*Chorus:*

All of us together, joining hearts and minds.  
We sing of peace and hope for humankind.  
Joining hands, we'll all stand against adversity.  
It takes all of us together, you and me.

It takes love and understanding to fill our world with peace.  
If we join our hearts together, we'll see that love increase.  
Each of us is all a part of one tapestry.  
It takes all of us together, you and me.

All of us together, joining hearts and minds.  
We sing of peace and hope for humankind.  
Joining hands, we'll all stand against adversity.  
It takes all of us together, you and me.

*Bridge:*

*All the world is one big symphony.  
By listening to our children, they can help us see that*

All of us together, joining hearts and minds.  
We sing of peace and hope for humankind.  
Joining hands, we'll all stand against adversity.  
It takes all of us together, you and me.  
It takes all of us together, you and me.
